

Alex Morgan

Rotterdam, Netherlands | Financial Analyst | Manufacturing Finance

Summary

- Financial analyst with 3 years of full-time finance experience in manufacturing. Experience includes monthly management reporting, quarterly reforecast support, and proposed equipment investment analysis, supported by Excel, Power Query, and SAP reporting extracts.

Work Experience

- Financial Analyst | Meridian Components | September 2023–September 2026
- Consolidated a monthly management pack from 8 cost-center files. Reconciled chart-of-account mappings and worked with cost-center owners using Power Query and validation checks.
- Reduced management pack preparation time from 5 to 3 working days over 6 monthly cycles, a reduction of 2 working days (40%) in pack preparation.

Selected Projects

- Supported a manufacturing site's quarterly reforecast using volume, unit cost, scrap, and overtime drivers. Produced a variance bridge against budget, reviewed assumptions with operations, and documented risks with named owners and next steps.
- Supported analysis of a proposed EUR 1.2m equipment investment by comparing utilization, maintenance, demand, and timing assumptions across base and downside scenarios. Estimated simple payback was 30 months in the base case and 42 months in the downside case. Recommended phased commitment subject to demand milestones.

Education

- Master of Science in Business Economics | Full-time | September 2021–June 2023
- BSc Economics | Completed June 2021

Tools

- Excel, Power Query, and SAP reporting extracts.
